

# ELECTRIC MACHINES – UNIPLAN – 3.5 kW

## EXCITATION RHEOSTAT

### DL 2044

Suitable for the series excitation of the direct current machines.

## EXCITATION RHEOSTAT

### DL 2066RHE

Cursor linear rheostat for the excitation of the synchronous machine.

## STARTING AND SYNCHRONIZATION UNIT

### DL 2053RHD3

Starting rheostat for DL 2053A and synchronization device with mains frequency. Possibility to use the motor as synchronous generator if driven by a motor.

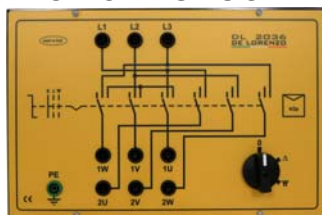

## STAR/DELTA STARTER

### DL 2035

Star/delta starter for the three-phase squirrel-cage induction motors

## POLE CHANGING UNIT

### DL 2036

Switch to change the number of poles in Dahlander type motors.
