

ELECTRIC MACHINES – UNIPLAN – 3.5 kW

ACCESSORIES

STARTING RHEOSTAT

DL 2040

Step-variable rheostat for 50% torque starting the 3 kW dc motors.

STARTING RHEOSTAT

DL 2037

Starting rheostat for three-phase slip ring asynchronous motor DL 2052.

STARTING RHEOSTAT

DL 2042

Step-variable rheostat for 50% torque starting the 1.2 kW DC motors, series excitation.

EXCITATION RHEOSTAT

DL 2041

Suitable for the shunt excitation of direct current motors.

EXCITATION RHEOSTAT

DL 2043

Suitable for the shunt excitation of direct current generators.
